elkosta Tyre Killer

Massive sharp spikes with guaranteed stopping effect

Our full range of Anti-Terror/ High Security products includes tyre killers, road blockers, bollards, barrier lift systems and sliding gates. Within this range the elkosta Tyre Killer offers a high degree of

protection against unauthorized entry or exit of hostile motor vehicles. If a vehicle attempts to break through, its tyres and axles will be destroyed and further progress will certainly be prevented.

Typical areas of application are: embassies, industrial plants, power stations, parking lots, car parks, airports, military sites and private properties.

elkosta **PERIMETER PROTECTION**

Tyre Killer - Massive sharp spikes with guaranteed stopping effect

Available control options

-  Push button
-  Keypad
-  Magnetic, code or contact-free card reader
-  Remote control
-  Induction loop
-  Photo beam
-  Finger print scanner
-  Iris scanner
-  Electronic vehicle identification system
-  Input from crash pad mounted on the lifting arm of a barrier installed in front of the tyre killer. If a vehicle attempts to break through the barrier the tyre killer will raise automatically.

Features

- Short operating times
- Spikes in warning colour
- All basic parts made from high tensile steel
- Easy installation due to ready-to-install blocking unit and separate drive cabinet
- Long - term corrosion protection
- Low maintenance
- Installation in all climate zones possible
- All vehicles can drive over the lowered Tyre Killer
- Emergency operation during-power failure by hand pump or accumulator (optional)

Application type and function

elkosta Tyre Killers can be used individually or in combination with e.g. road blockers, boom barriers, gates or bollards to form a sluice for vehicles. The solid sharp spikes will raise in approximately 2 seconds and block the road with a height of 450 mm. The spikes are clearly

visible thanks to garish warning colours thus ensuring the stopping of approaching vehicles in good time. In its lowered position the elkosta Tyre Killer is completely unobtrusive, flush with the road surface and capable of supporting wheeled vehicles with a load

bearing capacity up to bridge class 60. The "plug and play" elkosta Tyre Killer is characterised by a shallow installation depth which makes it particularly suitable for locations with limited available depth due to underground utilities.
